

AQUAI

Dry hydromassage membrane unit

This catalogue includes information on a medical device that should be handled by qualified medical personnel and used in accordance with the instructions or label.

Which patients can you **recommend AQUAI** to?

RELAXATION

Modern pace of life, work and family problems make many of your patients more stressed than ever. They take too little time for themselves. With **AQUAI** you can offer them an ideal way to relax along with various health-boosting effects.

PREVENTION

AQUAI offers a beneficial service for patients especially interested in their health and well-being, that keep their body in shape, eat healthy and try to boost their immune system and metabolism.

THERAPY

Recent studies found that over 70% of our population has backache or other chronic conditions. They require your particular attention while **AQUAI** provides an ideal addition to your prescribed treatment.

RELAXING MUSCLES

Highly repetitive activities, sitting, standing still, all kinds of office work or physical exertion usually lead to backache. They occur both in shoulder and neck areas as well as lumbar region. Tension or muscles hardening can be a reason of serious injuries such as slipped disc. **AQUAI** is a perfect solution for treating these problems.

Designed for a **comfortable, soothing relaxation experience**

AQUAI has a wide range of uses in wellness and fitness. It perfectly suits rehabilitation centers. It is also a very good option for relaxation rooms in companies.

A patient in a rehabilitation center or a guest in a SPA center can experience the beneficial power of hydro massage without getting wet. The massage is done through a layer of specially designed membrane.

Advantages of the treatment:

- Improvement in blood circulation and metabolism
- Increase in oxygen transport in muscles
- Improvement in movement range of extremities
- Tension relief
- Stress reduction and relaxation
- Well-being

Easy to get on & off
